As a business owner, protecting your assets is important.

Did you know?

No matter what type of business you run, liability insurance is one of the most important parts of your business insurance. **Without it you could be held responsible financially if you're found liable for injuries or property damaged caused by:**

- Your product
- Accidents on your property
- Accidents caused by your operation
- Accidents at your customer's location

Most Nurse Practitioners in Ontario don't have the protection they need. Your Association Insurance does not include commercial general liability insurance or coverage for your business property.

We've created our Nurse Commercial Insurance Program to protect you against these costly risks as well as to offer you optional property coverage that will cover your business property against physical loss or damage.

With 3 packages to choose from we offer affordable coverage above and beyond your Association Insurance, as well as the peace of mind that comes with knowing you're protected against the unexpected.

Properly insuring your home-based entrepreNURSEship is crucial to protecting both your business and your home. At **KW Insurance Brokers**, we understand the small business owner's personal and business needs, and can help you tailor coverage that's as unique as the products and services you provide.

Contact us today at (519) 744-4190 or email info@kwbroker.ca to learn more about how we can help you insure your livelihood.
